

OléSAY

A UNIQUE PROGRAM FOR
GAINING RESEARCH
EXPERIENCE

Program in partnership with the Spanish National Research Council (CSIC), the largest public institution dedicated to research in Spain and the third largest in Europe.

Provides a unique opportunity for undergraduate students in STEM disciplines to get a glimpse of advanced research work while gaining desirable practical experience in their field. The goal is to encourage students to pursue a scientific career and to expose them to an international experience.

OléSAY

**STEM FIELDS INTERNSHIP
PROGRAM IN SPAIN**

■ HOW ALL THIS WORKS

The Match is a collaborative process

Students are matched with a host institution, university lab or company according to their area of interest (biology, chemistry, physics, maths, engineering or a closely related fields).

This is a **student-centered process** and a list of detailed projects and internship host sites is provided in order to make the right choice.

Applications are accepted all year round. We recommend you apply at least 3 months in advance. Programs longer than 3 months require a visa.

International Internships are challenging BUT also life changing experiences for students.

Be open-minded and motivated!

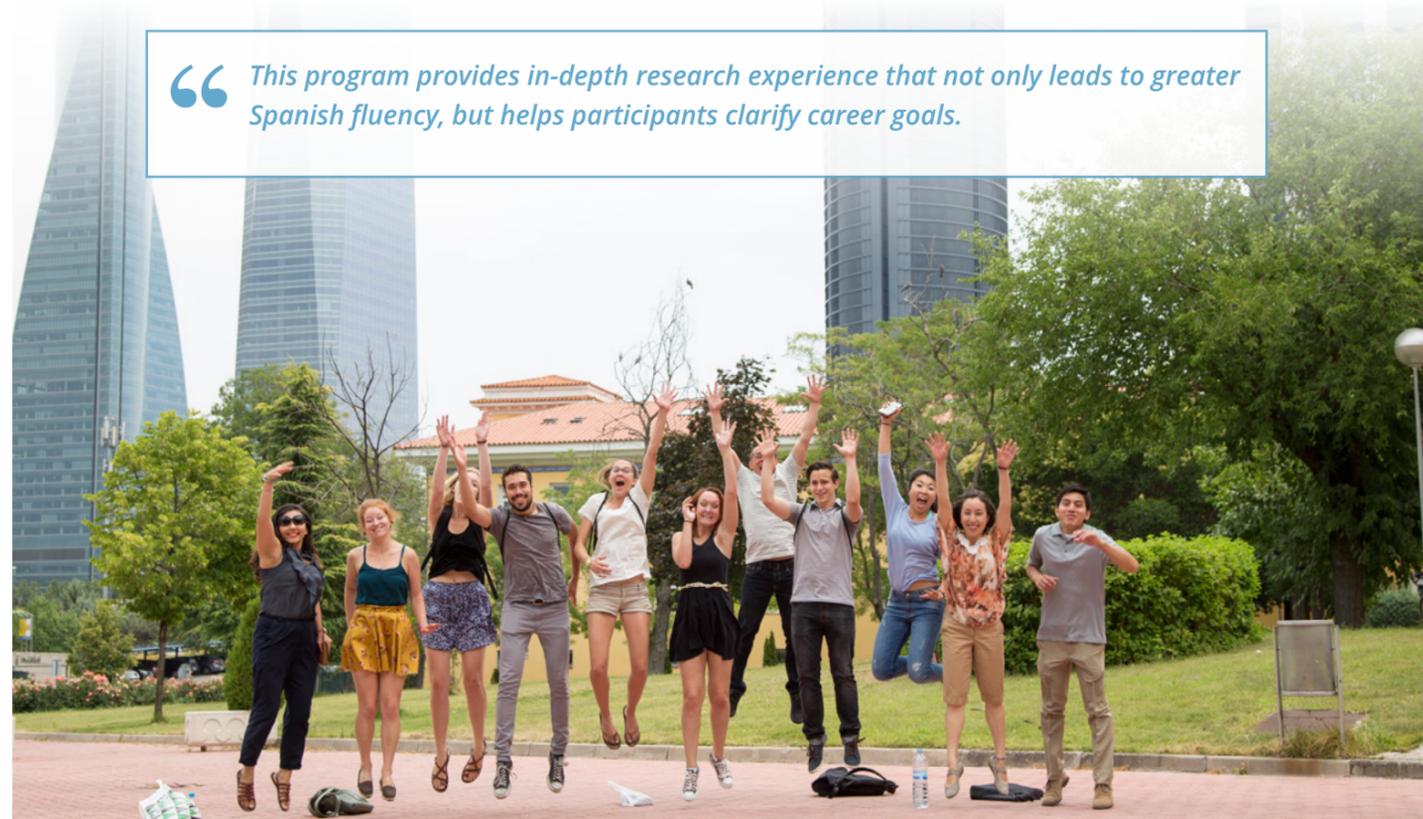

PROMOTING STUDY ABROAD IN SCIENCE AND TECHNOLOGY FIELDS

Spain is a worldwide leader in biotech industry, pharmaceuticals, food science, renewable energies and high speed rail.

- Gain lab experience and employability skills in your field.
- Increase spanish proficiency.
- Earn academic credit.
- Enjoy living abroad with a truly exciting program.

“ *This program provides in-depth research experience that not only leads to greater Spanish fluency, but helps participants clarify career goals.* ”
